Certificates: <https://github.com/LeuKhaak/Certif>

Education

PostgreSQL databases and backend using
Node.js
Self-study

febr 2022 — present

WEB development
LLC "WebDad", Brest.

September 2021 — January 2022

Additional distance learning under the mentoring program (already studied: atomic design, vue, vuex, redux, unit tests and e2e tests).

SQL databases
Computer Science Center

April 2021 — May 2021

I took a course of video tutorials in order to broaden my horizons.

Portfolio

1. Breaking Bad - movie hero finder app. Technologies used: atomic design, scss, React + redux, middleware Redux Thunk, fetch- requests, unit-tests and e2e-tests, Docker.

site: **<https://leukhaak.github.io/breaking-bad-new/#/>**

github-repository: **<https://github.com/LeuKhaak/breaking-bad-new>**

hub.docker-repository: **<https://hub.docker.com/r/levkhaak1968/breackingbad>**

2. Weather-app – weather widget. Technologies used: atomic design, scss, React + Typescript, fetch- requests, e2e-tests, Docker.

presentation: **<https://leukhaak.github.io/presentation-w-a/>**

hub.docker-repository: **<https://hub.docker.com/r/levkhaak1968/weatherapp>**

github-repository: **<https://github.com/LeuKhaak/weather-app-1>**

3. ToDo-list - Technologies used: scss, React, saving default data in json- file, placement on netlify:

site: **<https://test-ivashin-notes.netlify.app/>**

repository: **<https://github.com/LeuKhaak/test-notes>**

4. ToDo-list - Technologies used: atomic design, scss, vue + vuex, unit-tests and e2e-tests.

repository: **https://github.com/LeuKhaak/vue_1**

5. Online store website - Technologies used: React (class components), graphql – requests, Docker.

presentation: **<https://leukhaak.github.io/presentation-s-t/>**

repository: **<https://github.com/LeuKhaak/Scandiweb-test>**

hub.docker-repository: **<https://hub.docker.com/r/levkhaak1968/scandiwebtest>**

graphql backend (copied from developer repository ready-made)

repository: **<https://github.com/LeuKhaak/Scandiweb-test-graphql>**

hub.docker-repository: **<https://hub.docker.com/r/levkhaak1968/graphqlbackend>**

Additional Information

* I am currently taking an intensive distance individual English course under the "Intermediate" program, and besides, I study English on my own.

* If it is necessary to start work or internship, I can interrupt my courses ahead of schedule distance learning or continue them in parallel in their free time.

Consent

I hereby give my consent for my CV and personal data to be collected and processed by the authorized parties for the purpose of potential employment process
